

## COVID Protocols ( City of Dollard/Dollard Hockey )

As of tomorrow (Sept 2nd) we will have 2 rinks open and parents will be allowed back in The Civic Centre (limited time and access) but **not** downstairs in the hallways to the dressing rooms.

**All players and parents must wear a mask** (Properly over mouth and nose) at all times in the Civic Centre. Players can only remove their masks on the bench as activities start.

Players may only enter the building 15 minutes prior to their activity and must leave within 10 minutes after. There is to be absolutely no lingering.

Parents who wish to watch can only enter 5 minutes before activity and must leave immediately after again with no lingering.

All players (except Goalies) must come dressed with the exception of skates.

Goalies may enter 30 minutes prior to activity.

The players must pass through members of our Covid committee (located at the top of the stairs to the arenas) before being directed to their bench or changing room.

At check in they may have their temperature taken (no contact) and/or asked questions.

Each team will have a COVID manager who will have trace sheets for each hour of activities. These sheets will have the time, date, players names with check boxes for attendance, as well as boxes to tick of negative responses to the COVID questions. These sheets will be verified by the COVID Committee member present.

Coaches will be responsible for making sure their players are respecting **all** protocols I.e. players must remain on the assigned X on the bench to put on their skates or on the players bench.

During the practice no coach can get closer than 2 meters to a player. On the bench coaches must wear a mask.

The back door (heading into the back of rink 2) will be open as well as the doors on de Salaberry, City Hall door and Library door. Everyone must sanitize their hands entering the building.

In the stands there will be seats marked with a green X. You must respect the seating unless you are from the same household (like husband and wife)

Anyone with cold or flu symptoms is asked to not enter the building or participate with a team until they are symptom free or have a negative test.

We ask that you do not argue or try to circumvent the protocols and rules as we have limited volunteers and need them all. These rules are not suggestions but what we need to do in order to be able to run the association this year in accordance with the health minister, the City of Dollard-des-Ormeaux and Hockey Quebec so let's work together to make it work for the kids.
